

CHARTER AMENDMENT REQUEST

The governing board of _____ Charter School,
county/district number _____, submits the following amendments to its charter:

1. The charter is amended to adopt the provisions of Texas Education Code (TEC), Chapter 44, Subchapter B, as the charter holder's process for awarding a contract for the construction, repair, or renovation of a structure, road, highway, or other improvement or addition to real property. Consequently, the provisions of TEC, Chapter 44, Subchapter B, control in lieu of Subchapter B, Chapter 271, Texas Local Government Code. Nothing in the charter requires the charter school or the charter holder to comply with Chapter 44, Education Code, except with regard to a contract described in this amendment.
2. The charter is amended to permit the charter school to incorporate a provision of Chapter 2253, Government Code, into its agreements with prime contractors. If a provision of Chapter 2253, Government Code is incorporated into an agreement with a prime contractor, the charter school is entitled to the benefit of that provision as if it were a governmental entity for purposes of that chapter.
